# Making social and political information on Northern Ireland available to all

ARK is a resource dedicated to making social and political information on Northern Ireland available to all. The ARK website holds information on a wide range of social and political topics. With research summaries, survey results, visual material, facts and figures, it is an essential starting point for anyone who needs to gather information on Northern Ireland quickly and easily. Go to [www.ark.ac.uk](http://www.ark.ac.uk), and search across all the ARK materials or go directly to one of the specialist sections.

ARK also provides a number of services, including technical support for people who want to carry out analyses of large-scale survey datasets, but do not have the resources or expertise to do this themselves. To promote easy access to research information ARK produces briefing papers and other publications, and runs regular seminars. The ARK team is always interested in hearing from users about how we can improve or expand our service.
